

Make your own voting wheels.

1. Print off pages 1 and 2 in two different colours of card.
2. Laminate the cards, cut out the circles and cut along the straight lines.

3. Rotate one circle halfway round and slot the two cards together using the slits so you can't see the writing.

4. You're good to go. We use a bit of mouldable glue by the slit on one card to stop the circles slipping apart too easily.
